

DENTAL HEALTH MEMBERSHIP PLAN

HEALTHIER AND MORE CONFIDENT SMILES

In order to encourage our patients to maintain their recommended dental hygiene schedule, we have created 3 membership plans for our patients. We firmly believe it is essential that our patients protect their investment in their dental treatment. Regular dental cleanings are key to the health of your teeth and the long-term success of your dental implants. In addition, research shows that clean healthy mouths can ward off many other systemic diseases. These are typically the diseases associated with middle and older age. They include Atherosclerosis, which can lead to heart attacks, strokes and Alzheimer's disease.

Adult Membership
